## **Molina Expands Pharmacy Benefit Coverage for Continuous Glucose Monitors and Supplies** (Medicaid and Marketplace)

Dear Prescribing Provider Partner,

As part of our commitment to ensure members have easy access to quality, cost-effective options to help manage their diabetes, beginning **April 1, 2020**, Molina Healthcare expanded coverage of therapeutic continuous glucose monitoring (CGM) systems (DexCom G5®, Dexcom G6® and Freestyle Libre) under pharmacy benefits. Eligible members who were receiving CGM products through a medical benefit will now receive their care under a pharmacy benefit.

Simply use your ePrescribing capabilities to submit a prescription in real time to the member's pharmacy or mail-order pharmacy or CVS contracted DME provider. As a reminder, please ensure the prescription includes all components of the CGM- sensor, transmitter, and reader as applicable. Members will pay their preferred brand copay or coinsurance per the member's explanation of coverage pharmacy benefit (as applicable).

We recommend speaking to your eligible patients about the potential cost savings and convenience for ordering the Dexcom G5, Dexcom G6 or Abbott FreeStyle Libre through their participating local pharmacy or mail-order pharmacy.

If you have any questions, please contact Molina at (855) 322-4082. Thank you for your continued service to Molina members.
